*One Quarter at a Time*

© 1998 U.S. MINT

**D**uring the U.S. Mint's 50 State Quarters® Program, every state will be honored with its own commemorative quarter.

From 1999 through 2008, the rich history of the United States is unfolding as five quarters are issued each year in the order the states joined the Union. Collect the new quarters as they are issued, celebrate our nation's union, and begin to create a treasured legacy.

## 2002 Issues

Every new quarter features a special design on the reverse (tails side) of the coin inspired by concepts from the citizens who compete in the effort to express the essence of their state's unique heritage. The obverse (heads) -- redesigned for the 50 State Quarters® Program -- continues to feature the familiar profile of George Washington.

### Tennessee

Musical Instruments and a musical score support the coin's inscription "Musical Heritage." Three stars represent Tennessee's three regions and their distinct musical styles.

### Indiana

A racecar speeds toward the observer with the outline of Indiana in the background. The design includes the inscription "Crossroads of America" and 19 stars that signify Indiana was the 19th state to join the Union.

### Ohio

The 1905 Flyer and an astronaut are superimposed on Ohio's outline, symbolizing the coin's inscription "Birthplace of Aviation Pioneers."

### Mississippi

Two magnolia blossoms and leaves accompany the inscription, "The Magnolia State." The magnolia is both Mississippi's state tree and state flower.

### Louisiana

A pelican, trumpet and the inscription "Louisiana Purchase" are superimposed on a map of the United States that highlights the Louisiana Purchase Territory.

### Obverse

George Washington will remain featured on the obverse of the quarter. Legislation authorized the Mint to move the inscription "United States of America" and the designation of value "quarter dollar" from the reverse to the obverse side, and the year of minting or issuance from the obverse to the reverse side of the quarter.
